Product Description

Vibrant Colors TR And Silicone Kids Eyeglasses LF 2155 Model

Product Description:

Our frames come in a variety of colors to suit any kid's style preferences. The fashionable design of these frames will make your child look and feel confident while wearing them.

Our eyewear is unisex, making it suitable for both boys and girls. This is perfect for families with multiple children who can share the frames. The style is also versatile, which means it will complement any outfit your child wears.

The frames are elliptic in shape, which is perfect for kids who have a round or oval face shape. The shape of the frames will help balance out the face and create a more flattering look. The frames are also made with a TR Frame, which is a type of material that is both durable and lightweight. This ensures that the frames will last a long time and won't be too heavy for your child's face.
