## Product Description

### Product Description:

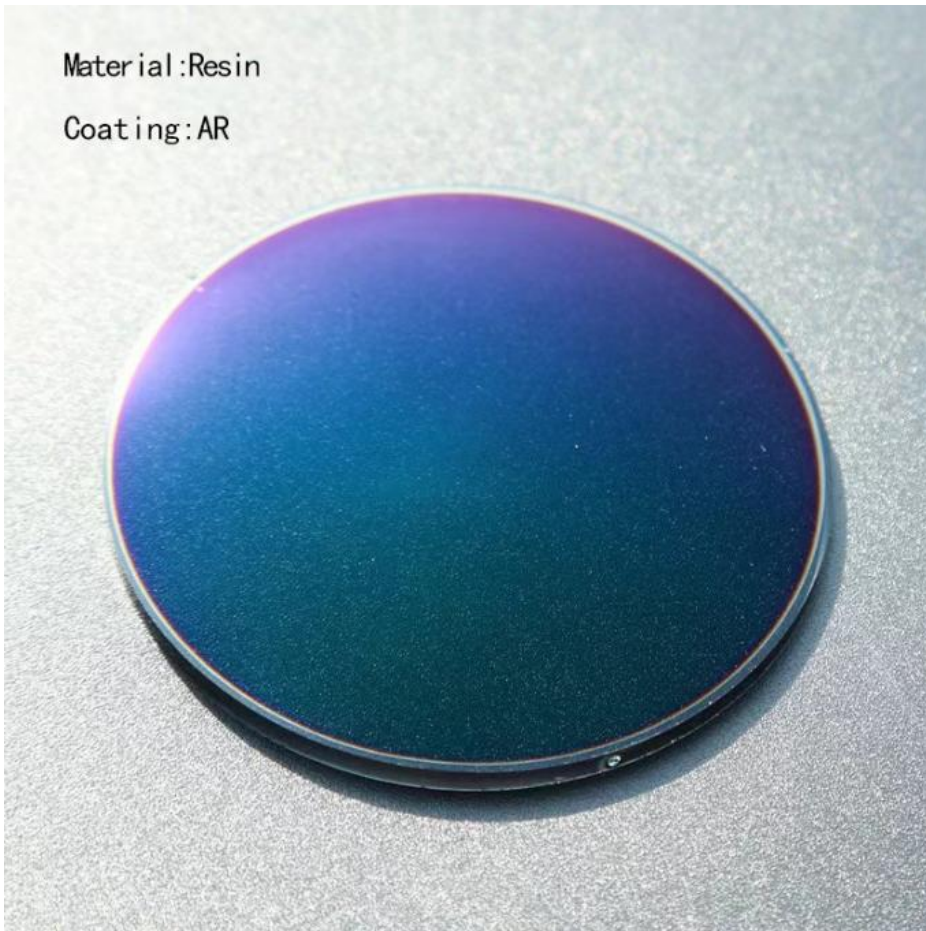

One of the key features of this lens is its UV-1/UV-2 protection. This means that it blocks harmful UV rays from reaching your eyes, helping to protect them from damage and ensuring that you can see comfortably in bright sunlight. Additionally, this lens is impact-resistant, so you don't have to worry about it cracking or shattering if it is dropped or bumped.

The 1.56 aspheric lens is made from Resin, a durable and lightweight material that is perfect for eyeglasses. Resin is also known for its shatterproof qualities, making it an ideal choice for people who lead active lifestyles. Whether you enjoy playing sports, hiking, or simply running errands around town, these lenses can keep up with your busy schedule.
