- Payment Terms: L/C, T/T, Western Union
- Supply Ability: Spot Inventory

Product Specification

- Material: Resin
- Type: Aspheric Lens
- Power Range: Myopia 0-2400 Degrees Hyperopia 0-2400 Degrees, Astigmatism 0-600 Degrees
- Thickness: Thin
- Water Repellent: Yes
- Uv Protection: UV-1
- Available Prescriptions: Single Vision
- Abbe Value: 32.0
- Index Of Refraction: 1.601
- Coating: HMC+AR
- Highlight: single vision lens glasses,
single vision digital lenses,
digital single vision lenses

Product Description

1.60 HMC AR Coating Ophthalmic Single Vision Lenses For Block EMI

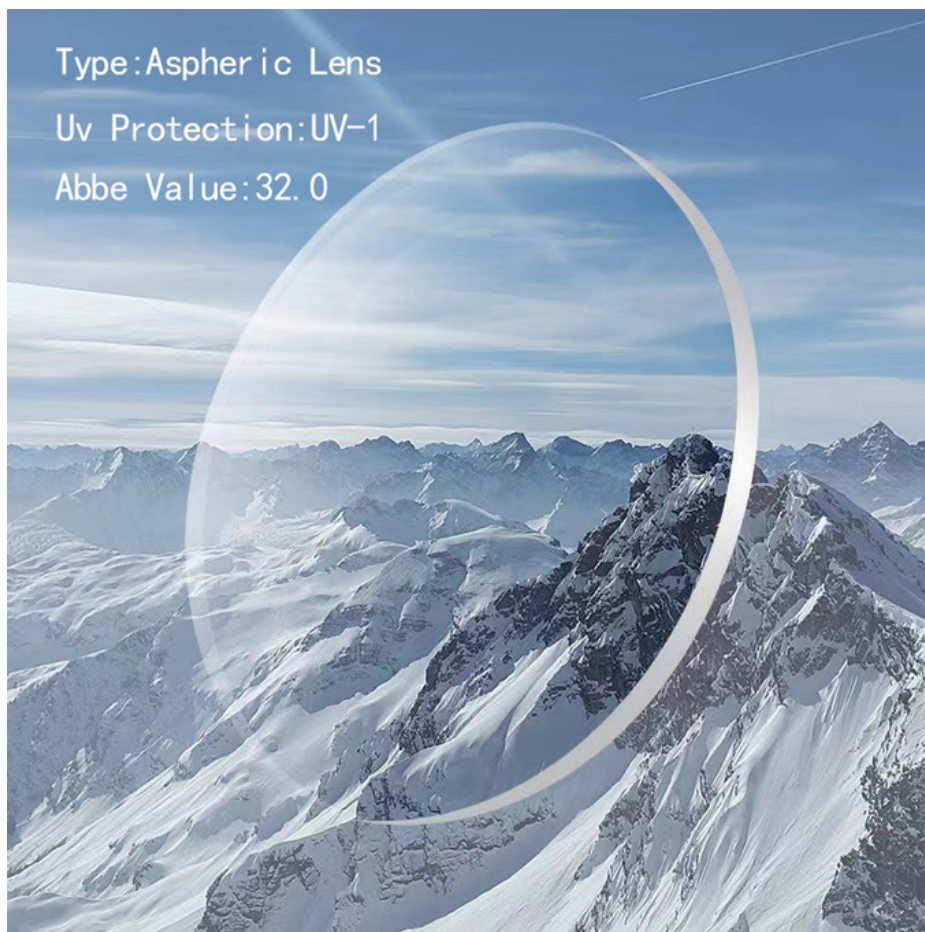

Product Description:

At the heart of our single vision lens is a premium-grade polycarbonate material that delivers outstanding impact resistance, making it an ideal choice for those who need a tough, durable lens that can stand up to the rigors of daily use. Additionally, our single vision lens features an index of refraction of 1.60, which means it offers superior optical clarity and sharpness compared to other lenses on the market.

One of the key features of our single vision lens is its aspheric design, which ensures that the lens surface is flatter and smoother than traditional lens designs. This helps to reduce distortion and aberration, resulting in a clearer, more natural viewing experience for the wearer. Additionally, our aspheric lens design helps to minimize the appearance of lens thickness, making our single vision lens a great choice for those who need strong prescription lenses but don't want the added bulk and weight that often comes with them.

Whether you're a student who spends hours studying each day or a professional who relies on clear vision for your work, our single vision lens is the perfect choice for those who demand the best in optical performance and durability. So why wait? Order your single vision lens today and experience the difference for yourself!

Features:

Product mode	1.60 INDEX
