- Highlight: **1.67 single vision lens, Ophthalmic Single Vision Lenses, Single Vision Lenses For Block EMI**

## Product Description

### 1.67 HMC AR Coating Ophthalmic Single Vision Lenses For Block EMI

#### Product Description:

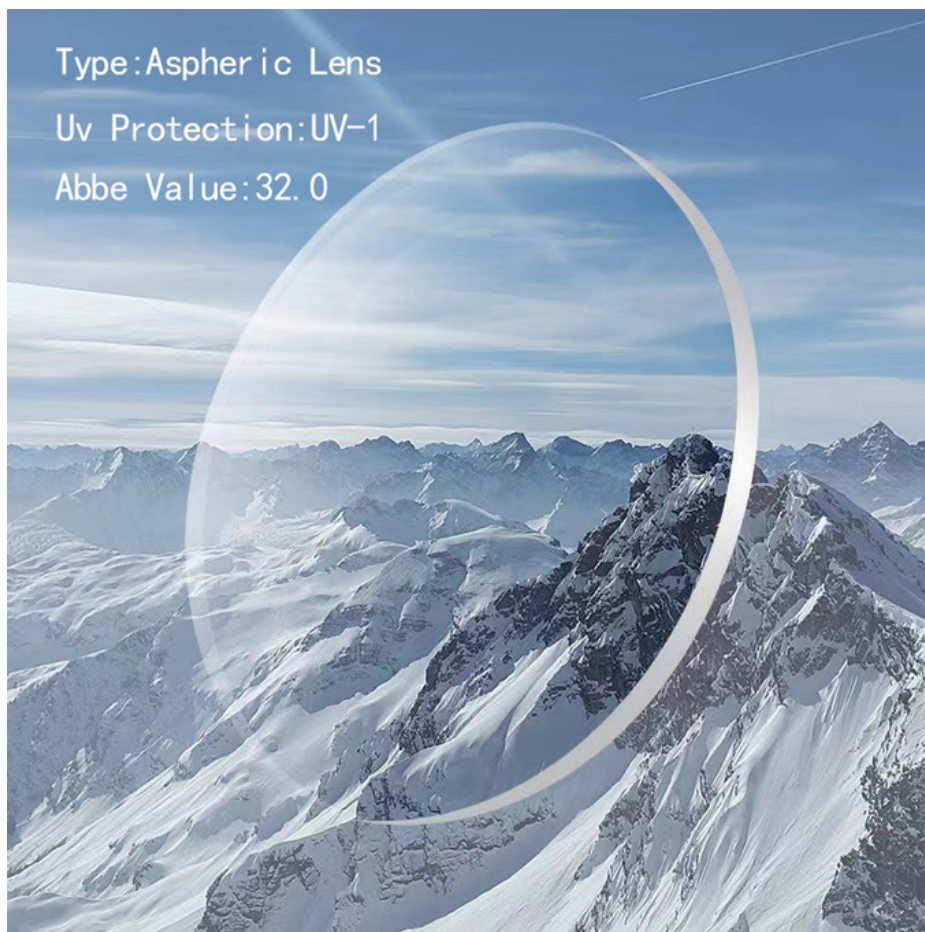

The lens design of our Single Vision Lens is aspheric, which means that the lens is flatter and thinner than traditional lenses. This design provides a more natural look, making it easier for you to adapt to your new glasses. The aspheric design also reduces distortion, providing you with clear and precise vision.

Our Single Vision Lens comes with scratch resistance, ensuring that your lens remains in excellent condition for longer. The scratch-resistant coating protects your lens from scratches, ensuring that your vision remains clear and crisp. This feature is especially important for those who wear their glasses regularly, as it prevents the lens from becoming damaged over time.

The coating color of our Single Vision Lens is green, providing a stylish and modern look. The green coating enhances your vision by reducing glare, making it easier for you to see in bright light. The coating also provides a protective layer, ensuring that your lens remains in excellent condition for longer.

Our Single Vision Lens is the perfect solution for those who require a single prescription for their eyes. With UV-1 protection, scratch resistance, and a stylish green coating, our lens provides clear and crisp vision, no matter what your prescription is. The aspheric design ensures that your lens remains thin and light, providing a natural look that is easy to adapt to. So why wait? Try our Single Vision Lens today and experience the difference for yourself!
