Product Description

1.59 Lenses Blue Light Resistance Polycarbonate Photochromic Lens

Product Description:

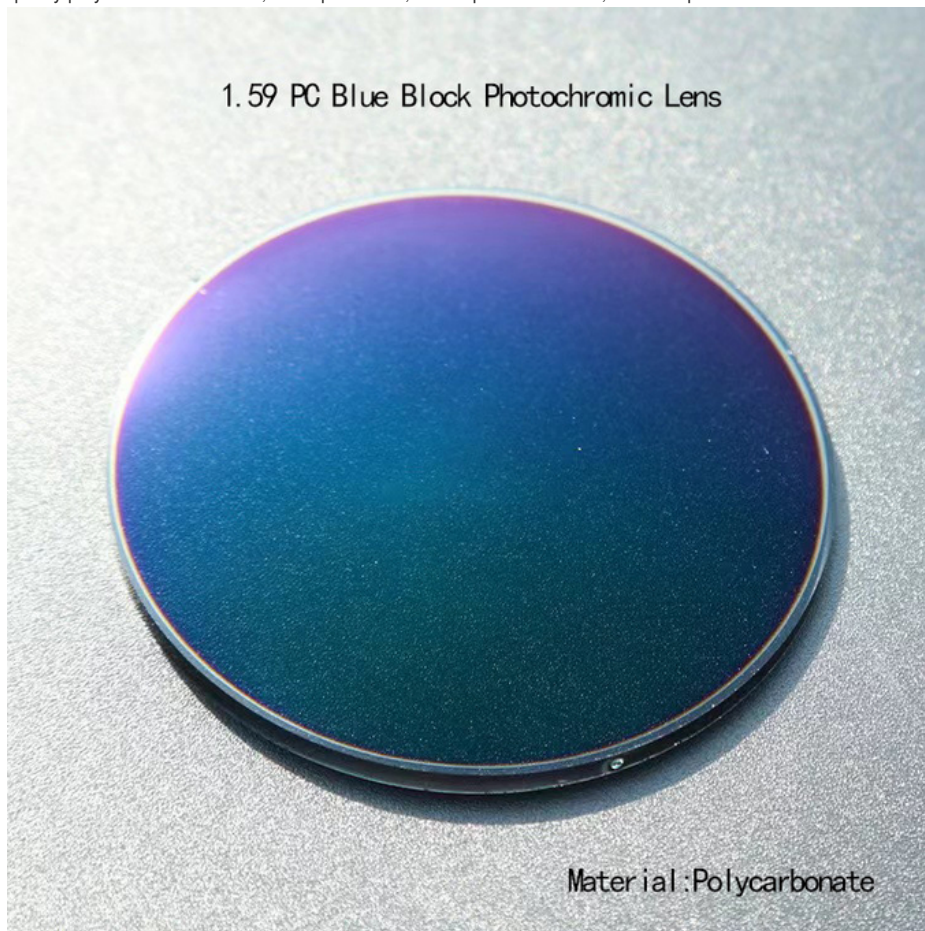

Our single vision lens comes with a base curve of 6.00, which is perfect for providing a comfortable fit and optimal visual performance. This helps to reduce eye strain and fatigue, allowing you to enjoy clear vision throughout the day.

Our single vision lens also provides excellent UV protection, with a UV-1 rating. This means that it blocks up to 99% of harmful UV rays, which can cause serious damage to your eyes over time. With our single vision lens, you can enjoy clear vision and complete protection from the sun's harmful rays.

Furthermore, our single vision lens is impact resistant, which means that it can withstand accidental drops and impacts without shattering or cracking. This helps to keep your eyes safe in case of accidents or mishaps.

Overall, our single vision lens product is the perfect choice for anyone who values clear vision, comfort, and eye protection. With its high-quality polycarbonate material, UV-1 protection, and impact resistance, this lens provides unbeatable value for money.
