Product Description

Product Description:

Designed to provide superior vision correction for people with presbyopia, these progressive lenses offer a seamless transition from distance vision to near vision, thereby reducing the need for multiple pairs of glasses. The VOLGTLANDER progressive lens is perfect for anyone who needs clear and sharp vision for a variety of occasions and scenarios.

Whether you are reading a book, working on a computer, or driving, these lenses provide excellent visual clarity and comfort. The adaptable design of these lenses ensures that they can be worn for extended periods without causing any discomfort or eye strain.

In addition to their superior visual performance, these progressive lenses are also coated with HMC (Hard Multi-Coating) for enhanced durability, scratch resistance, and anti-reflective properties. The green coating color adds a touch of elegance and style to the lenses, making them a great fashion accessory for any occasion.

Abbe Value:34.5

Coating:HMC
