## Product Description

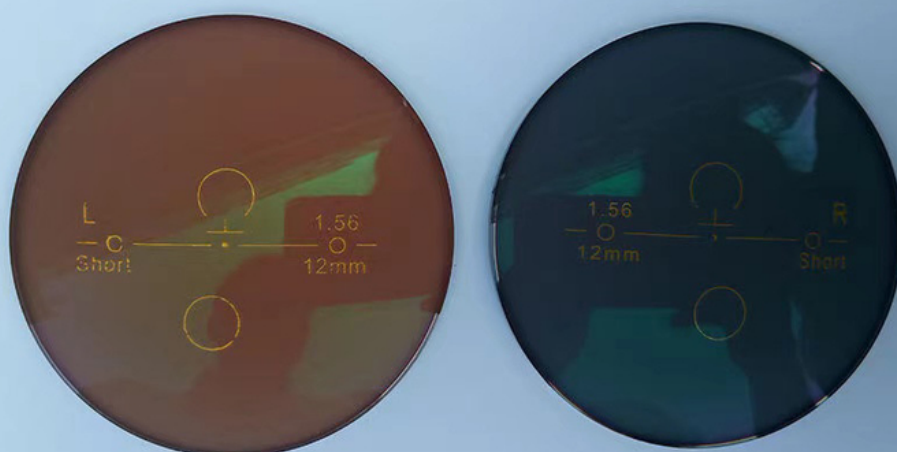

### Product Description:

Progressive lenses have a green coating color and a color-changing feature that enhances contrast and reduces glare, making them ideal for outdoor activities. It also has clear colors that blend seamlessly with any eyeglass frame, giving you a sleek and sophisticated look. One of the best features of our progressive lenses is their adaptable comfort. It has a smooth transition between different focal lengths, allowing you to get a clear view at all distances. Whether you're reading a book, working on a computer, or driving, our progressive lenses give you the clarity you need without compromising comfort.

Our progressive lens also has UV-1 protection, which blocks harmful UV rays from reaching your eyes. This protection ensures that your eyes are safe from the sun's harmful rays, reducing the risk of eye damage and discomfort.

So, if you're looking for a high-quality progressive lens that can adapt to your daily activities, our product is the perfect solution. With its green coating color, clear color, adaptable comfort, and UV-1 protection, our progressive lens is the ultimate choice for your prescription eyewear needs.
