Product Description

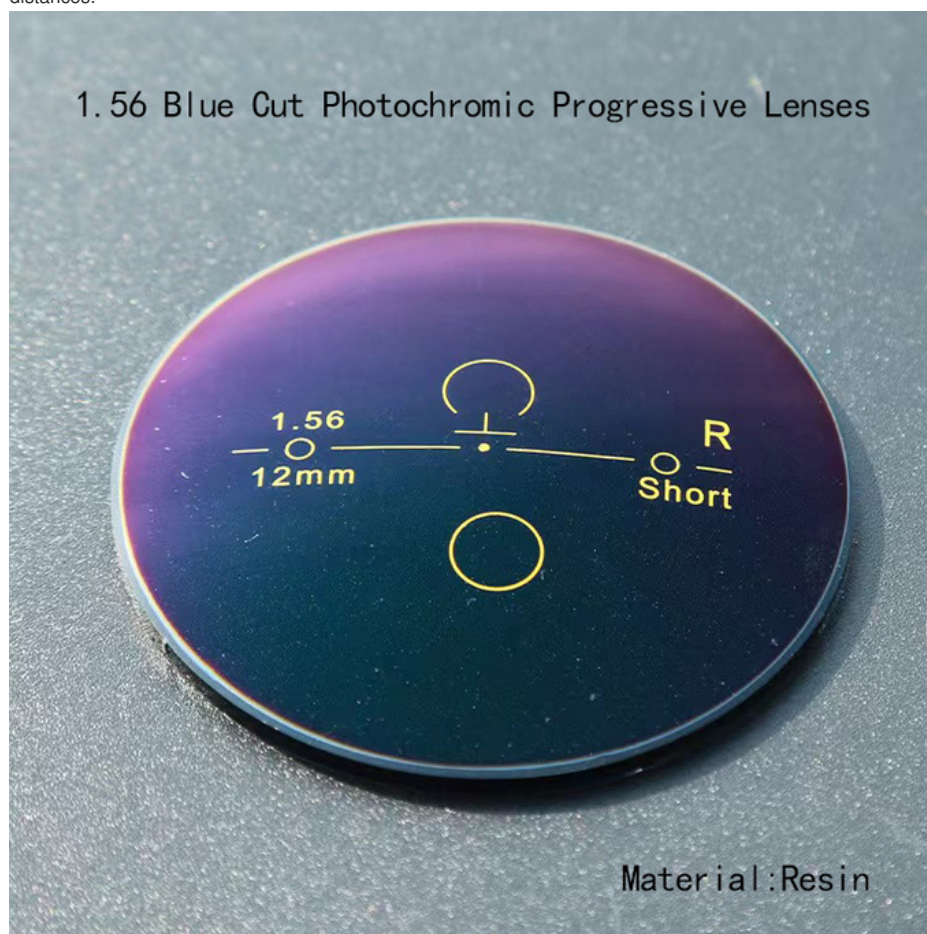

Block Blue Ray Photochromic 1.56 Blue Cut Progressive Lenses

Product Description:

Our progressive lens is made from high-quality resin material, ensuring durability and longevity. Resin material is a popular choice for lenses, as it is lightweight and impact-resistant, making it a great option for everyday use.

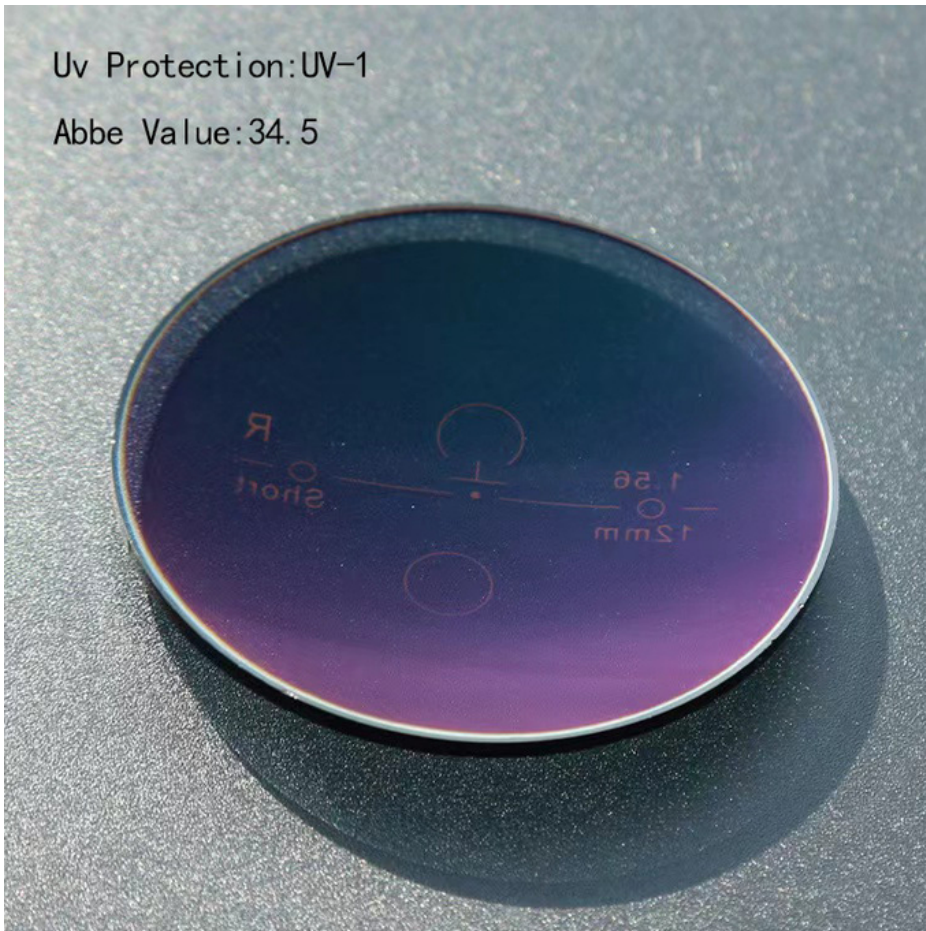

With our progressive lens, you can enjoy clear vision at any distance without the hassle of switching between multiple pairs of glasses. It's perfect for individuals who need to switch between reading, computer work, and distance vision throughout the day. Our progressive lens design offers a smooth transition between near, far, and intermediate distances, providing you with a crystal-clear vision throughout the day.

Our progressive lens is available in a custom fitting, ensuring that you receive a perfect fit that is tailored to your unique needs. A customized fit is crucial when it comes to progressive lenses, as it ensures that the lens is accurately positioned for optimal viewing at all distances.
