Product Description

Clear Comfort and Enhanced Durability 1.60 HMC Progressive Lens

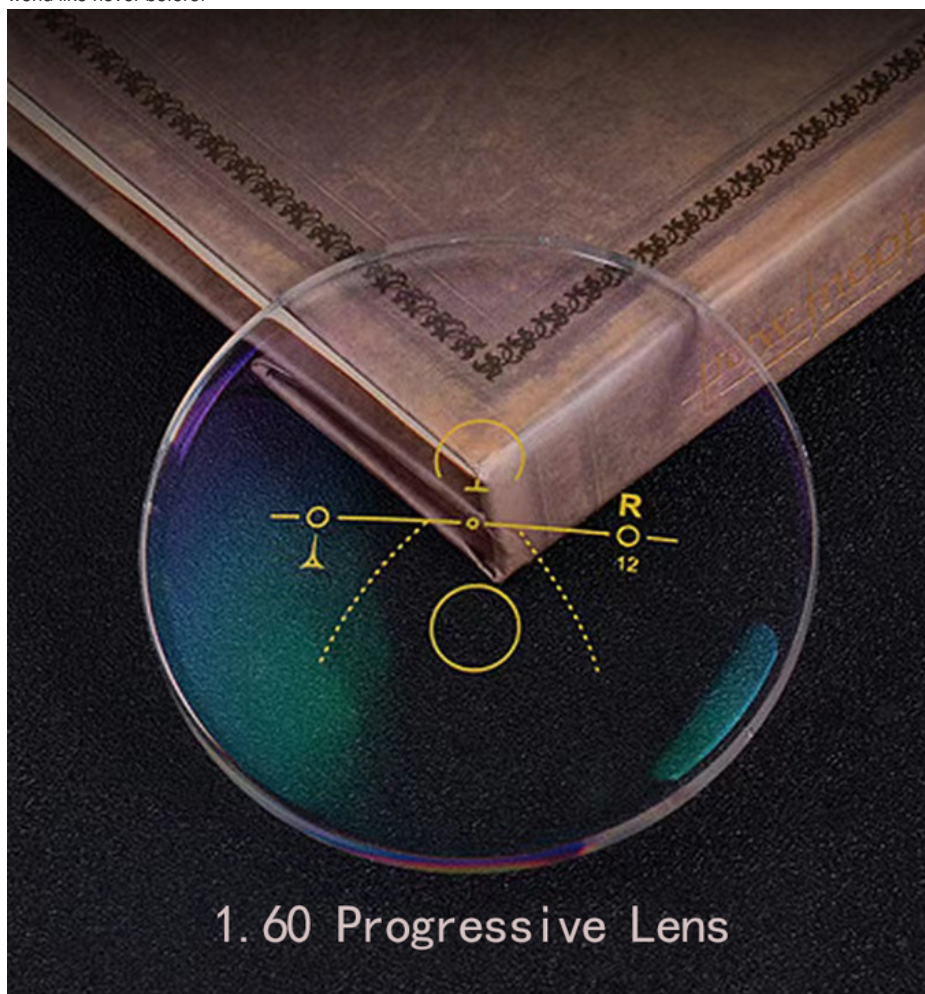

Product Description:

The progressive lens is an ideal choice for individuals who have difficulty focusing on objects at different distances. It is designed to provide a seamless vision experience by combining multiple prescriptions into one lens, eliminating the need for multiple glasses. This feature makes our progressive lens an excellent choice for individuals who need to switch between reading, driving, and other activities that require different vision prescriptions.

Our progressive lens boasts an impressive 1.601 index, which means that it is thinner and more lightweight than traditional lenses. This index also ensures that our progressive lens provides a sharper and clearer vision experience, making it ideal for individuals who require a high level of visual clarity.

The progressive lens also features an Abbe value of 32.0, which means that it is highly resistant to chromatic aberration. This feature ensures that our progressive lens provides a more accurate and true-to-life vision experience, allowing you to see the world in all its vibrant colors.

In conclusion, our progressive lens is an excellent choice for individuals who want a high-quality lens that provides a seamless and clear vision experience. Its premium features, including the high index, Abbe value, and HMC coating, make it an ideal choice for individuals who require a high level of visual clarity and durability. So why wait? Get your hands on our progressive lens today and experience the world like never before!
