## Product Description

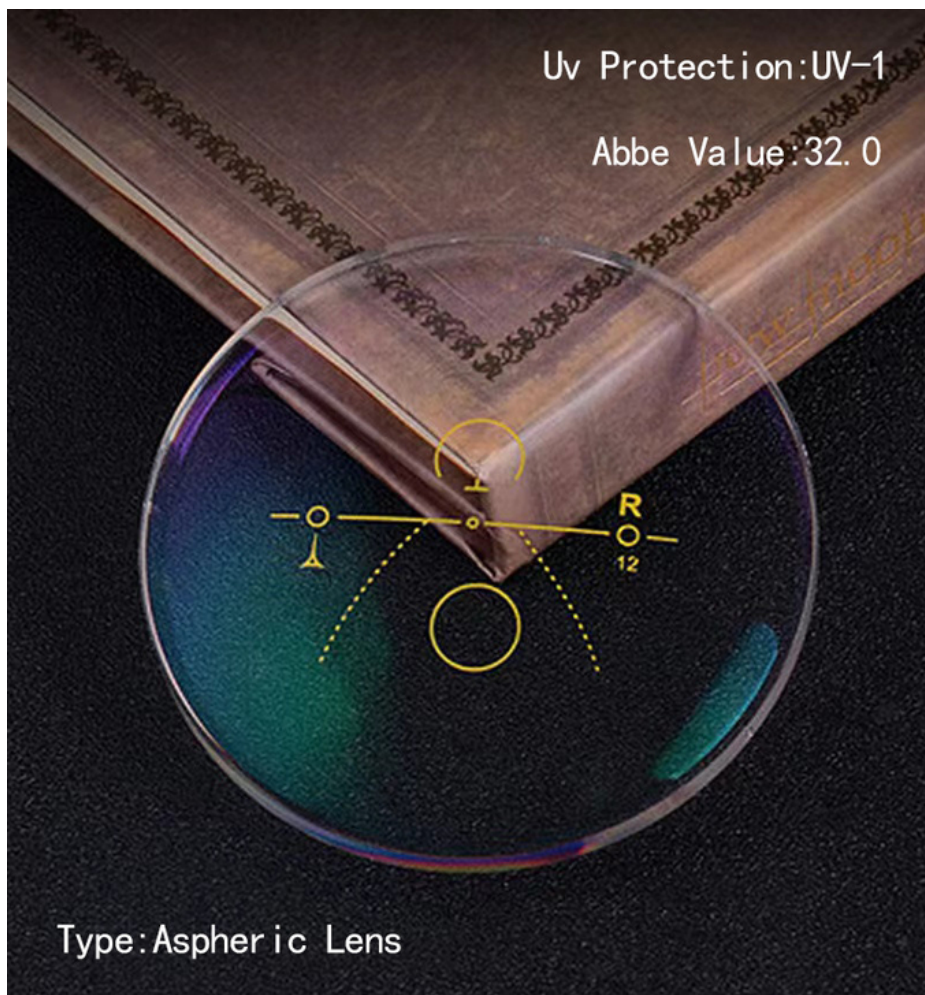

Quality Lenses 1.60 Blue Cut Progressive Lenses For Block Blue Ray

### Product Description:

Our progressive lenses are made from high-quality resin materials and are known for their durability and lightweight properties. With an Abbe value of 32.0, this lens provides excellent clarity and minimal distortion, ensuring a clear and natural view of your surroundings. Our progressive lenses are clearly colored, with anti-blue light and a green coating for extra protection against glare and harmful rays. This coating not only enhances the appearance of the lenses, but also helps prevent scratches and smudges, making them easy to clean and maintain.

In our company, we pride ourselves on our commitment to providing quality products that meet the highest quality standards. Our progressive lenses are no exception, as it undergoes a rigorous testing process to ensure it meets our strict standards for performance and reliability.
