## Product Description

### Quality Lenses 1.60 Blue Cut Photochromic Progressive Lenses

#### Product Description:

Our progressive lens is designed to accommodate a wide range of prescriptions, from single vision to progressive, ensuring that everyone can benefit from its advanced technology. Our lens is customized to your specific needs, taking into account your prescription, frame style, and how you use your glasses. This ensures that you get the best possible vision correction and the most comfortable fit. When it comes to durability, our progressive lens is second to none. Made from high-quality materials, it is scratch-resistant, ensuring that it can withstand daily wear and tear. You can be sure that your lens will look as good as new, even after months of use. But that's not all. Our progressive lens also provides UV-1 protection, shielding your eyes from harmful UV rays. This makes it the perfect choice for those who spend a lot of time outdoors or in brightly lit environments. Overall, our progressive lens is the perfect choice for anyone who needs vision correction for both near and far distances. With its multifocal design, customized fit, scratch-resistant durability, and UV-1 protection, it is a top-of-the-line product that you won't regret investing in.
