Product Description

Green Coating Multifocal 1.60 Inner Progressive Lens Clear Vision

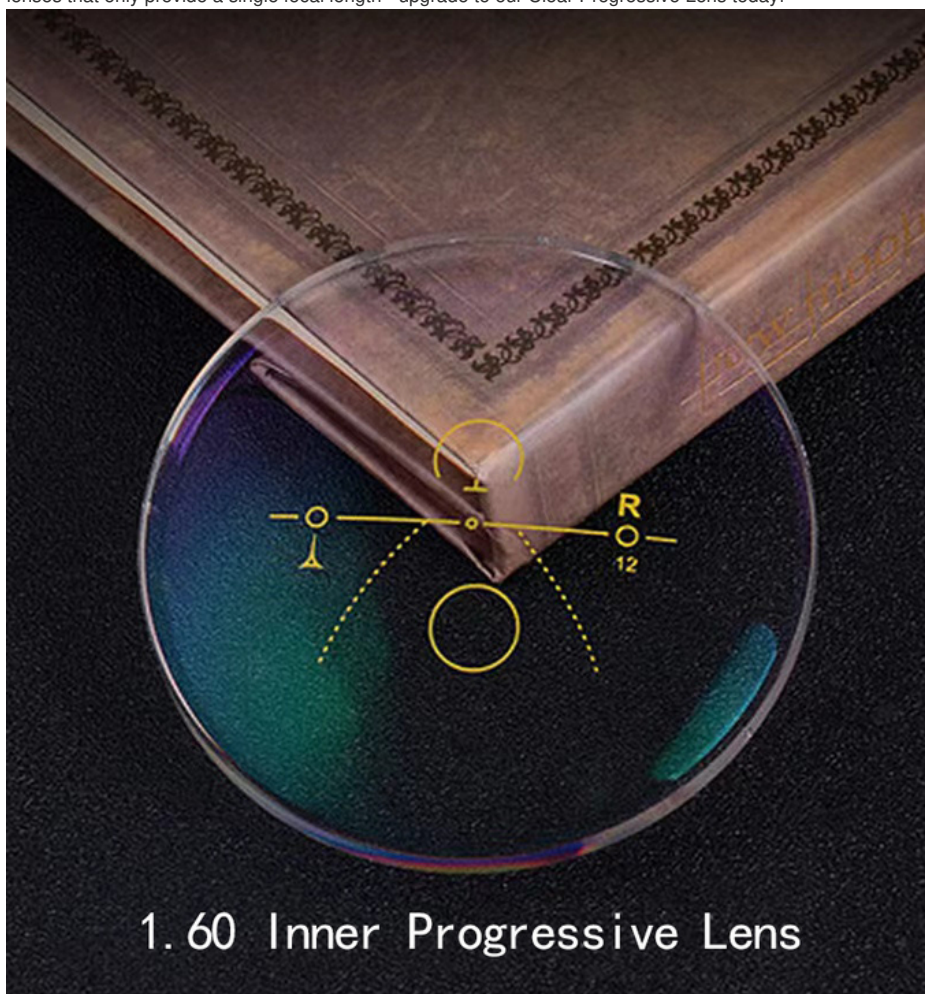

Product Description:

With its clear color, this lens is perfect for those who want a sleek and polished look without sacrificing functionality. The progressive design of the lens allows for a seamless transition between different focal lengths, making it ideal for those who need to switch between reading and distance vision frequently.

When it comes to durability, our Clear Progressive Lens is scratch-resistant, ensuring that your lens stays in good condition for a long time. This feature is perfect for those who lead an active lifestyle and need a lens that can keep up with them.

Comfort is also a top priority with our progressive lens. The adaptable nature of the lens allows it to conform to the unique shape of your eye, providing a comfortable fit that you can wear all day long. Say goodbye to the discomfort of traditional lenses that only provide a single focal length.

Our progressive lens is perfect for anyone who wants a high-quality lens that can keep up with their active lifestyle. With its multifocal lens type, scratch-resistant durability, and adaptable comfort, this lens is the perfect solution for all your vision needs. Don't settle for traditional lenses that only provide a single focal length - upgrade to our Clear Progressive Lens today!
