## Product Description

### Product Description:

One of the key benefits of our photochromic lens is its high impact resistance. This means that you can wear these lenses with confidence, even in situations where your eyes may be at risk of injury. Our lenses are designed to withstand impacts from a variety of sources, ensuring that your eyes stay safe and protected no matter what.

When it comes to lens material, our photochromic lenses are made from high-quality resin. This material is known for its durability and resistance to scratches, ensuring that your lenses will stay clear and free from damage for years to come. Whether you're wearing them for work, sports, or leisure activities, our photochromic lenses are sure to provide the protection and performance you need.

Our Aspheric Single Vision Lens also features UV protection and Anti Blue Light, helping to shield your eyes from harmful rays that can cause damage over time.
