Product Description

Product Description:

Our Single Vision semi-finished is also equipped with scratch-resistant and impact-resistant properties, ensuring long-lasting durability and reliability. With its high scratch resistance, our photochromic lens is capable of withstanding everyday wear and tear, allowing you to maintain clear vision without worrying about scratches or damage. Similarly, its high impact resistance makes it ideal for those who lead active lifestyles or work in hazardous environments.

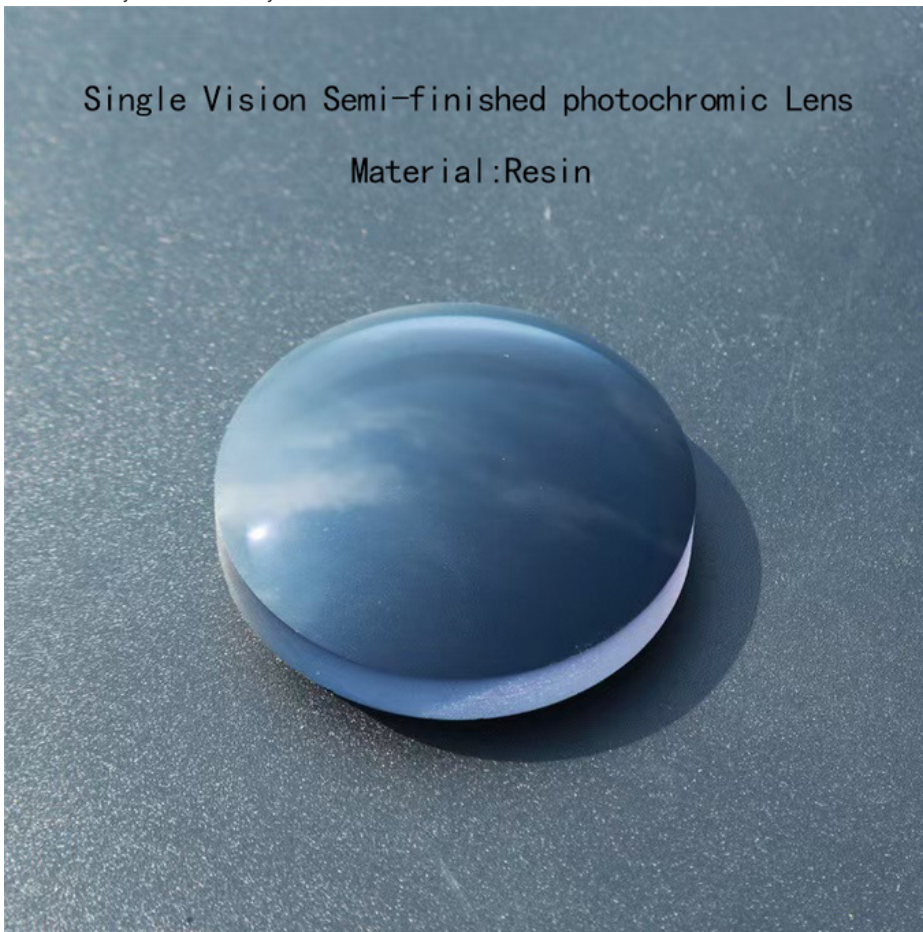

Our Single Vision semi-finished is also equipped with a UC/HC/HMC lens coating, which provides additional benefits such as scratch resistance, water resistance, and smudge resistance. This coating ensures that the lens is easy to clean and maintain, allowing you to enjoy clear vision for longer periods.

Overall, our Single Vision semi-finished is the perfect solution for those who require versatile, durable, and reliable eyeglass lenses.

Whether you're an outdoor enthusiast or simply looking for a comfortable and practical eyewear solution, our photochromic lens is a great choice. With its high scratch and impact resistance, standard lens diameter, and UC/HC/HMC lens coating, our photochromic lens is an investment in your vision and eye health.
