Product Description

Product Description:

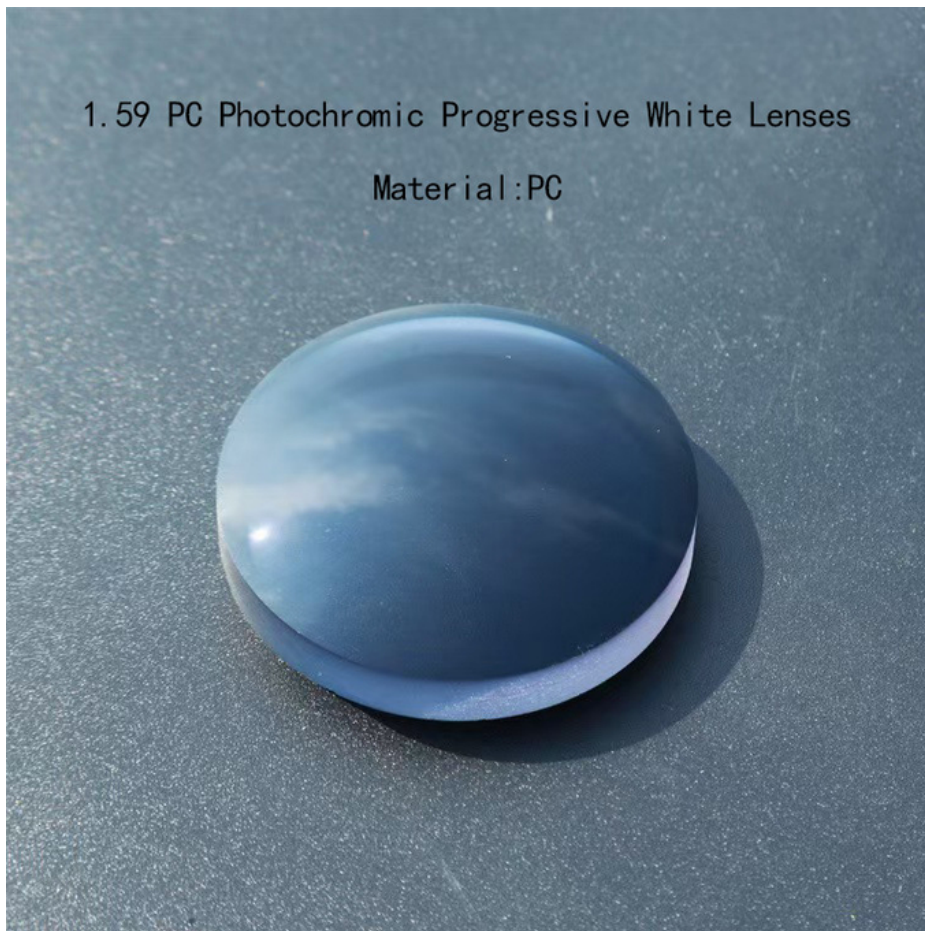

Our PC white film progressive greying lens products are designed with high impact resistance, ensuring that your eyes are protected from any potential hazards. The standard lens diameter is ideal for everyday wear and is comfortable to wear. The semi-finished design of the lens provides flexibility for customization, ensuring a perfect fit for your needs.

The thin lens thickness of our PC White Film Progressive Grey lens products reduces the weight and thickness of your glasses and provides you with a comfortable fit. The UC/HC/HMC coating on the lenses ensures that your vision is always clear and clear, with minimal glare or reflections.

Our PC White Film Progressive Greying lenses are ideal for those who are always on the go to adapt to changing light conditions throughout the day. Whether you're indoors or outdoors, our lenses will give you the perfect shade to keep your eyes protected and comfortable.
