## Product Description

### Product Description:

The Beta Titanium Glasses are made from beta titanium and TR material which makes them extremely light. The weight of these glasses is only 10G, which means that they are perfect for all-day wear. You don't have to worry about getting tired or feeling uncomfortable because these glasses are designed to be as light as possible.

The temple of these glasses is adjustable which means that you can adjust them to fit your face perfectly. The adjustable temple also means that these glasses can be worn by anyone, regardless of the shape of their face.

The frame of these glasses is full frame which means that the lenses are held in place by a frame that goes all around the lenses. This makes the glasses more durable and long-lasting. The full frame also gives the glasses a classic look that never goes out of style.
