Product Description

Product Description:

The rectangle shape of these glasses gives them a retro look, which is perfect for those who love classic styles. The frames feature an ip-plating finish, which not only adds to their retro charm but also protects them from wear and tear.

These glasses are not just stylish but also very practical. The Beta Titanium material provides them with a high level of flexibility, making them resistant to bending and breaking. The TR material, on the other hand, makes them resistant to heat and sweat, ensuring that they will not deform or lose their shape due to everyday wear and tear.

The ZTO 1020 model is designed to cater to the needs of the internet celebrity young crowd. Its literature and art inspired style is perfect for those who want to showcase their unique sense of fashion. These glasses are perfect for both men and women, and can be worn for any occasion, whether it's a formal event or a casual day out.
