Product Description

Product Description:

Made with a combination of beta titanium and TR materials, these glasses are not only stylish but also durable. Beta titanium is known for its strength and flexibility, while TR is a lightweight material that makes the glasses comfortable to wear for long periods of time. Whether you're a fashion-forward trendsetter or just appreciate a good pair of glasses, the Beta Titanium Glasses are sure to impress. The lightness of the materials ensures that you won't even notice you're wearing them. These glasses are also a great choice for literature and art enthusiasts. The timeless design of the ZTO 1026 model is reminiscent of classic literary and artistic styles, making them a perfect accessory for any bookworm or art lover.
